

ARIA

Aria, an elegant passepartout for wall or ceiling installation, EN47100 die-cast aluminum made. The external structure is powder polyester coated on treated layer to prevent corrosion and is available in five standard colors while the base is white painted only.

The chemical treatment of aluminum fixtures consists of Cataphoresis process followed by a 60/80micron layer of power polyester coating

A diffused light emission, characterized by uniformity, efficiency, and anti-glaring thanks to the planar light guide.

The positioning of the LED board matched to the light diffusing reflector grant a low luminance and bidirectional emission.

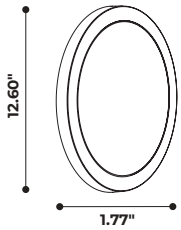

- Integral Power Supply 120VAC 50-60Hz , phase cut dimming power supply included.
- Power 16W Today - Light source Mid Power LED (12W LED)
- CCT: 2700K/3000K/4000K CRI \geq 80
- Polycarbonate UV resistant diffuser, mechanically fixed with silicon glue to grant IP protection
- IP65
- IK07
- IP gel connector included
