# fog 80

Fog 80 is a luminaire available for recessed ceiling applications, with EN 47100 die-cast aluminum body and white powder-coated finish. The product, with a diameter of 3.15" and a power of 6W, guarantees resistance and longevity, essential features for the entire Fog recessed range. Ideal for any outdoor lighting requirement thanks to the three possible installation options: recessed (0.39" inside the casing), flush and protruding (+ 0.39" from the casing).

LANDA®

# fog 125

Fog 125 has a diameter of 4.92" and is the ideal solution for recessed ceiling applications offering the possibility of installation protruding/retracting ( $\pm$  0.39") or flush mounting with the fixture kit.

The luminaire, with a power of 14.5W, is supplied with 3000K or, on request, also available in other color temperatures and color change version. The diffused light of Fog 125 is emitted by the LED technology source, which allows to have always optimal performances, also thanks to the extra resistant opal tempered glass. The body is made in die-cast aluminum with white powder-coated finish. Power supply is integrated, with the possibility of DALI management on request, so as to make the application of the product easy to manage in any outdoor context.
