

# GENIUS BASIC NAKED

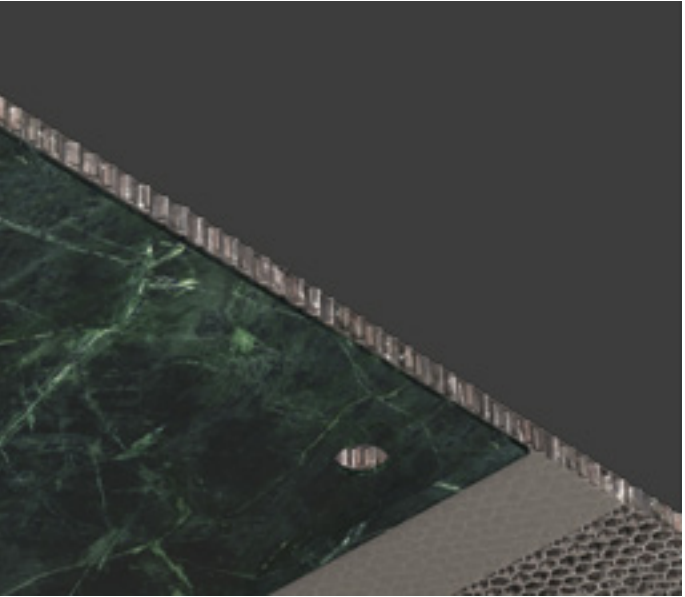

COMPACT, VERSATILE, AND  
INSTALLABLE ON ANY MATERIAL

Hotel Splendid, Madonna di Campiglio | ADC - Arch. Alberto Di Camillo | ph. Le Michette Creative Studio

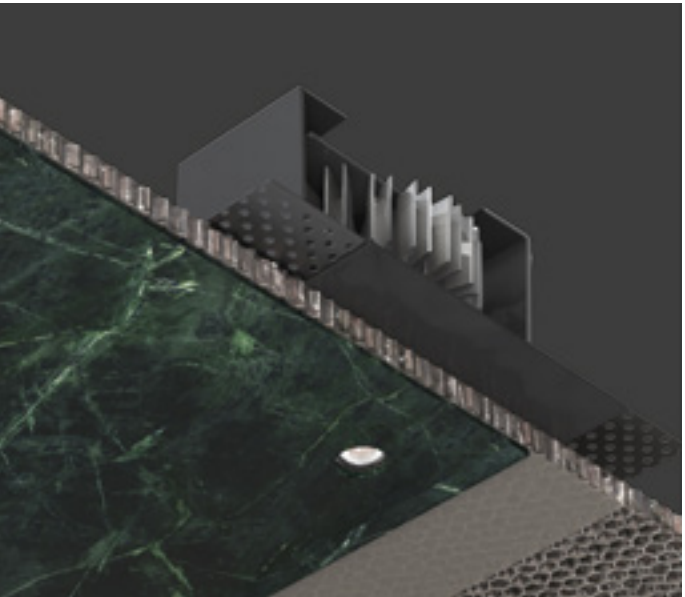

THE MOST COMPACT TO INSTALL  
ON ANY MATERIAL

*A totally recessed indoor luminaire, Genius Basic Naked is a variation of the Genius Basic, blending its characteristic notes with the possibility of surface integration in any context and material.*

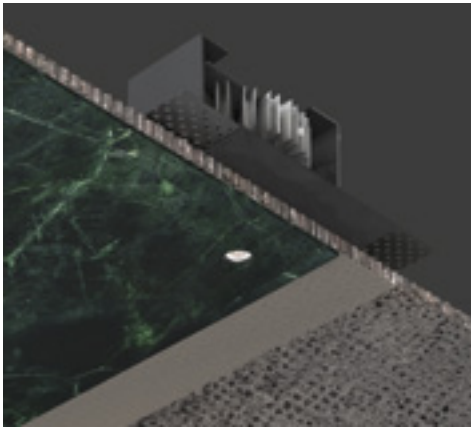

*This new Genius, specially designed for the Contract world, can be installed in just 3.15" of cavity space, on any material (wood, concrete, mirror, marble, industrial modules) with a thickness from 0.16" to a maximum of 1.18".*

*Genius Basic Naked is the synthesis of Buzzi & Buzzi technology in terms of versatility and efficiency: the only visible part is the light emission hole measuring only 0.79", which provides a light flow of 540 lm; the electrical part can be removed through the light hole, so there is no need for any inspection hatch, nor for invasive maintenance operations.*
