The body is made of Coral Water Out® is a new material which has proved highly resistant to water penetration. This water-repellent effect remains unchanged over time as it is a superficial finish but rather a structural feature of the material itself.

This material is ideally suited to IP65/IP44-rated recessed lighting, suitable for use in external environments, and ideal for light systems in spas, wellness clubs, massage centres, swimming-pools, bathrooms, and all other locations where water and humidity restrict the choice of technical lighting.
