# i-lantern

*I-Lantern is characterized by a strong personality, a direction of light with a diffuse light beam and a 10W powerful heart, perfect for wall applications. An aesthetic fusion lives in parallel with a minimal design in order to be declined in many possible outdoor installations. Composed of a structural framework in extruded aluminum, I-Lantern is a luminaire with the possibility to be managed and dimmed via Bluetooth on request. I-Lantern lights the outdoors of private spaces and beyond.*
