# PHANTOM RECTANGLE

Lamee  
IDEASBECOMINGLIGHT

Luminaire designed for wall and ceiling installation. Suitable for LED sources, it is composed of a body made of polyester powder coated aluminum sheet to ensure durability over time and maximum resistance against atmospheric agents. A specific transparent crystal-clear diffuser screen in PMMA, submitted to a processing treatment from solid, ensures a perfect uniformity of light distribution and performance. The screen is integral to the body through a special glue-sealant used in shipbuilding. The installation is allowed through a hidden installation plate in stainless steel sheet by hidden fixing screws. Protection degree IP65 of these luminaires is ensured by a special glue-sealant used in shipbuilding and appropriate waterproof cable gland system. It is equipped with a 1.64' long cable for connection to the 24VDC power supply line. ADA Compliant.
