

MAXI RIM

MINIMALISM AND LIGHT POWER.

The purity and perfection of light are perfectly represented by Maxi Rim, a totally disappearing indoor recessed luminaire, made of Coral® and installable on plasterboard or brick ceilings. It has a circular shape which elegantly integrates itself with the surrounding spaces. A bright sphere in satin glass which creates a neat and concrete beam, like a headlight guiding to the discovery of architectonic spaces, in a delicate yet sharp manner, giving life to ever new light settings.
