

MILLI V

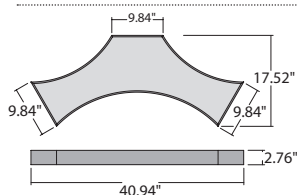

The MILLI V lighting system offers an unlimited freedom of various shapes by combining just one luminaire. Individual luminaires are coupled by a unique magnetic system without using other tools; this is why assembling the lighting system is very simple, allowing many alternatives in respect of the shape. Luminaires are fitted with up-to-date LED modules.

120-277VAC, 0-10V dimming.

Design by Rob van Beek.

DIMENSIONAL DRAWING

DESCRIPTION

MATERIAL
aluminum

CERTIFICATION MARKS
IP 20

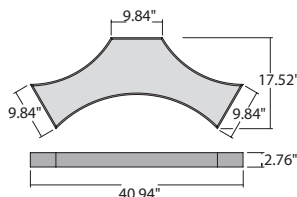

LUMINAIRE CODE	POWER INPUT OF LED LUMINAIRE	LUMEN OUTPUT LUMINAIRE	COLOR	DIMENSIONS l/w/h (mm)
direct luminaires				
H101-520K-10GHA/8_0/120-277/	43.2W	2120lm (2010lm)		40.94"x17.52"x2.76" (1040x445x70)
H101-521K-10GKA/8_0/120-277/	50W	4560lm (4340lm)		40.94"x17.52"x2.76" (1040x445x70)

= 3 CCT 3000K = S Silver Finish
 = 4 CCT 4000K = W White Finish
 = B Black Finish

it is necessary to order assembly kit H101-0001 for surface installation
suspension, ceiling cup etc. have to be ordered separately
