nest

An unexpected LANDA product, Nest takes its inspiration from nature.

A luminaire with IP65 protection level, suitable for lighting the branches of trees and hedges in public and private gardens.

Nest's light, with a color temperature of 3000K and diffused beam with a power of 8W, enhances applications to the maximum with minimum artificiality.

*The dissipating CNC-machined aluminum body is **fixed** to the steel frame, on which the web of willow branches develops.*

*At a later stage, the part in natural wood undergoes a nanoparticle varnishing treatment to provide maximum resistance to atmospheric agents. The range is available in two different sizes: **Ø6.69" x 4.33"** and **Ø9.25" x 5.12"***
