FLAI

Itinerant
and
Autonomous
Light
Source

Acronym of

Fonte Luminosa Autonoma Itinerante.
(Itinerant and Autonomous Light
Source)

It is a manifesto about the freedom to personally experience either indoor or outdoor lighting. A philosophy presented by Diomede and designed by the creative duo MAIS Project.

FLAI is a concept of contemporary itinerant light. It expresses domestic nomadism. The user is nomad and demanding, he does not want limits, he does not have a fixed seat but he wants to be well served.

FLAI is a versatile, free and portable light. FLAI does not lead to the discovery of a place but to the rediscovery of a space.
