

GENIUS BLACK

Genius Black is a total recessed indoor luminaire of AirCoral® installable on plasterboard or brick ceilings. The light emission hole, only 0.79" wide, is co-extruded with a black cylinder of anodized aluminium which elegantly embellishes a pure technical product. The anti-reflection effect of the black collar makes the luminaire an example of great, refined style: in fact, this characteristic enhances the aesthetics of the product, making Genius Black the ideal solution for environments that require elegance. The electrical part can be extracted directly from the emission hole with a simple hand gesture. This is possible thanks to the push-pull mechanism, which facilitates the eventual extraction and replacing of the LED source in case of maintaining.
