

Luminaire designed for wall or ceiling installation using fixing clips or stainless steel adjustable brackets to be ordered separately. Suitable for LED sources of different powers, its body is composed of an external tubular profile in transparent, satin or opal polycarbonate, resistant to UV rays. The inner body is made of extruded aluminum to enhance heat dissipation. The luminaire protection degree IP67 is ensured by double O-ring gaskets. Closing end caps are made of anodized alluminum. The luminaire is supplied with rear cable output. It is equipped with a 19.7" long cable for connection to the 24VDC power supply line through appropriate connection systems to be ordered separately. 24VDC Electronic driver to be ordered as an accessory.

SYMBOLS

Available configurations

Luminaire available in RGB version (only for versions with a min. of 3 lamps or LED versions).

Luminaire available in CTC version (color temperature control, only for versions with a min. of 3 lamps or LED versions).

Luminaire has possibility to be dimmed.

Luminaire has possibility to be dimmed 0/10.

Luminaire has possibility to be dimmed DALI.

Luminaire has possibility to be dimmed PWM.

Luminaire available with induction sound diffusion system.

Luminaire available with internal Wi-Fi Router for the diffusion of any kind of wireless signal in the surrounding space.

Emergency Kit

Luminaire customizable (with feasibility to be checked). Changes on request:

-size

-communication technology (integrated DALI, WIFI or AUDIO)

Luminaire available, on request, in RGB version (only for LED versions or with a minimum of 3 lamps).

Luminaire available, on request, in CTC version (color temperature control, only for versions with a min. of 3 lamps or LED versions).

Luminaire available, on request, in dimmable version.

Luminaire available, on request, with microprismatic screen for high visual comfort.

Water Stop protection

IP Protection degree code

1st DIGIT - Protection against solid bodies

IP1... Protection against solid bodies $\geq 1.97''$ IP2... Protection against solid bodies $\geq 0.47''$

IP3... Protection against solid bodies ≥ 0.10" IP4... Protection against solid bodies ≥ 0.04"

IP5... Protection against dust IP6... Total protection against dust

2nd DIGIT - Protection against water

Protection against vertically falling drops Protection against vertically falling drops

IP...2 with a tilt angle up to 15° Protection against sprays of water up to

60° from devertical

Protection against water spray from all

directions Protection against water jets

Protection against powerful water jets Protection against temporary immersion

up to 30' under 3.28' of water

IP...8 Protection against continuous immersion under 3.28' of water

Power supply type

Certificates and requirements

The luminaire can be installed on normally flammable surfaces.
