

HOKU D-70

Hoku is an outdoor, adjustable LED on-grade or floodlight made of stainless steel that can be installed on the floor, wall, or ceiling. It consists of a cylinder with parallel lines creating a pattern on the surface, that rotates 360° in the housing base. It is available in 3 standard Hard Coat Treatment finishes. Lamp by others. Hoku D-70 is the Ø4.7" x 5.1" version.

TECHNICAL DATA

Wattage	5W (D-70)
Power Supply	120VAC GU10 LAMP (Provided by Others)
Dimming	Determined by Lamp
Construction	Body: AISI 316L Stainless Steel
CCT	Determined by Lamp
CRI	>85
Delivered Lumens	Determined by Lamp
Efficacy	Determined by Lamp
Optics	Determined by Lamp
Hard Coat Finishes	Inox Natural, Inox Graphite, Inox Bronze
Fixture Dimensions	Ø4.7" x 5.1" (HOKU D70)
IP Rating	IP66
Impact Resistance	IK08
Warranty	10 Years Against Corrosion 5 Years on Electrical Components

Hard Coating Treatment is the surface treatment of all the products by Stral Lighting. It is not a skin of color, but instead is a process that allows for the color to be absorbed all the way through. If a product is scratched, the color beneath is the same as the color on the surface. It guarantees a high superficial resistance to corrosion and atmospheric agents, as well as making the products anti-fingerprint and anti-stain. Available in three finishes Inox Natural, Inox Graphite and Inox Bronze.
