

GOCCIA

STEP LIGHTS FOR OUTDOOR APPLICATIONS

With a diffuse output that guarantees excellent visual comfort, Goccia offers way guidance in driveways, external walkways and on steps in residential and hospitality contexts. Its light is perfectly uniform thanks to a mixing chamber built into the resin body, which has high protection ratings of IP65 and IP68. The LED color mixing in the RGB versions satisfies even the most creative design requirements. Goccia is a versatile fixture that can be installed flush with the surface using an outer casing and is also suitable for wall mounting to produce artistic, emotive and communicative lighting.
