<b>Fixture Weight</b>	8.8 lbs
<b>IP Rating</b>	IP65

The body is made of Coral WaterOut® a unique patented composite material highly resistant to water penetration - made from modifying the structure of Coral®. This water-repellant effect remains unchanged over time as it is not a matter of a superficial finish, but rather a structural feature of the material itself.

This material is therefore ideally suited to IP65/IP44-rated recessed lighting, suitable for use in external environments, and ideal for light systems in spas, wellness clubs, massage centres, swimming-pools, bathrooms, and all other locations where water and humidity restrict the choice of technical lighting.
