

Project:

LONGWOOD GARDENS

Location:

KENNETT SQUARE, PA

Lighting Design:

TILLOTSON DESIGN ASSOCIATES

Architect:

WEISS/MANFREDI

Landscape Architect:

REED HILDEBRAND

Longwood Reimagined expands the public spaces across the renowned central grounds, connecting them east to west, offering a newly unified but varied journey from lush formal gardens to views over the open meadows of Pennsylvania's Brandywine Valley. The centerpiece and largest single element of Longwood Reimagined is a new 32,000-square-foot glasshouse with gardens and pools designed by Reed Hilderbrand.
