

LUCIGNOLO

Elegant fixture for installation on a solid wall or floor surface.

With soft yet focused light emission, **Lucignolo** aspires to be not only a functional fixture but also a decorative element, thanks to the range of painted aluminum or steel covers with elegant PVD finishes.

This treatment provides the opportunity to offer customers the chance to experiment with particularly refined colors such as gold and bronze in glossy or matte finishes.

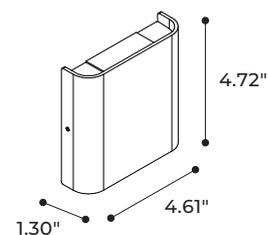

The structure is made of die-cast aluminum, treated with electrophoresis, and coated with polyester powder.

Equipped with LED module in two colors, 24VDC operative or with integral power supply.

24VDC 3 / 2x3W LED 180° CRI≥90 2700K/3000K
