# OLO WOOD 1.1

designplan®

Olo Wood is a cylindrical bollard made of weather-resistant teak sourced from FSC®-certified plantations and a head and base of die-cast aluminum in an anthracite finish. Designed to deliver refined, functional lighting for both urban and residential spaces, it is available in two heights with 360° radial emission for broad, diffuse lighting or 180° semicircular emission for a more targeted output, and high-performance optics that can be tilted ±6° to compensate for uneven ground and maintain a perfectly horizontal beam.
